Luc Teot (*France*)

Correspondence and manuscripts should be directed to the Editorial Secretary
Professor Mohamed Kadry, Egyptian Society of Plastic and Reconstructive Surgeons,
42 Kasr Eleini street, Dar El-Hekmah, Cairo, Egypt or
E-mail: mo4022006@yahoo.com

EDITORIAL INFORMATION

The editorial board welcomes submission of original articles on any aspect of Plastic and Reconstructive and Aesthetic Surgery. All correspondence and manuscripts or other editorial communications should be addressed to the Chief Editor, Professor Gamal E. Beheiry or Editorial Secretary Professor Mohamed Kadry.

Manuscripts Preparation

The author should submit the original manuscript and one copy, with two sets of illustrations and retain one complete copy.

The language used for publication is the English language in common usage. It must be clear, accurate and coherent.

Manuscripts must be typewritten, double spaced, on one side only, on 8.5 x 11 inches (22 x 28 cm) white paper, with 4 cm margins at the left, top and bottom and 2.5 cm margin at the right. All copies must be double spaced, including text, title, footnotes, bibliography, legends, tables and headings.

The title page should carry the full title of the article, followed by the author's name(s) in full, degrees, and principal affiliations of each author. A page, with the name and address of the principal author and when and where was the paper presented.

An abstract of the content, on a separate page, should precede every original article. It should be self contained and informative without referring to the text (the problem investigated, the method used, the results obtained and the conclusions reached).

The reference must be typed on separate pages and must be cited in the text in numerical order, not alphabetically according to "Vancouver System". References to journal articles should include: (1) authors(s), (2) title. (3) journal name as abbreviated in *Index Medicus*, (4) volume number, (5) the first page number and (6) year of publication in that order. References to books should include (1) author(s), (2) chapter title (if any), (3) editor (if any), (4) book title, (5) city of publication, (6) publisher and (7) year of publication. Volume and edition numbers, specific pages, and names of translator should be included when appropriate. Methods of statistical analysis when done should be mentioned before the results. If more complicated procedures are used they should be referenced as well.

Legends and Figures

Legends for illustrations should be typed double spaced on separate pages. Legends for photomicrographs should specify the stain and degree of magnification. Photographs should be submitted sharp focused, good contrasted in black and white.

All figures and photographs should be sent unmounted with their number and the name of the author marked with a pencil on their back and the top direction indicated. Before and after photographs of patients must be identical in terms of size, position and lighting. Coloured photographs can be considered for publication at the expense of the author. Radiographs. C.T. Scan etc. should be presented as prints and not negatives. All tables and illustrations should be referred to in the text.
