**Plastic and Reconstructive Surgery**

## **Description of Plastic Surgery**

Plastic surgery deals with the repair, reconstruction, or replacement of physical defects of form or function involving the skin, musculoskeletal system, craniomaxillofacial structures, hand, extremities, breast and trunk, external genitalia or cosmetic enhancement of these areas of the body. Cosmetic surgery is an essential component of plastic surgery. The plastic surgeon uses cosmetic surgical principles both to improve overall appearance and to optimize the outcome of reconstructive procedures.

Special knowledge and skill in the design and surgery of grafts, flaps and free tissue transfer and replantation is necessary. Competence in the management of complex wounds, the use of implantable materials, and in tumor surgery is required. Plastic surgeons have been prominent in the development of innovative techniques such as microvascular and craniomaxillofacial surgery, liposuction, and tissue transfer. Anatomy, physiology, pathology, and other basic sciences are fundamental to the specialty.

Competency in plastic surgery implies an amalgam of basic medical and surgical knowledge, operative judgment, technical expertise, ethical behavior, and interpersonal skills to achieve problem resolution and patient satisfaction.

## Specialist Clinical Privileges:

Operations		Arabic	Allowed	Comments	
Principles of reconstructive surgery	GRAFTS	Split Thickness			
		Full Thickness			
		Composite			
	FLAPS	Local Flaps			
		Muscle / Myocutaneous flaps			
		Fasciocutaneous flaps			
		Micro anastomosis			
	IMPLANTS (other than breast implant)				
	TISSUE EXPANDERS (other than breast implant)	Insertion			
		Removal and reconstruction			
Acute Trauma	Face	Soft tissue injuries			
		Simple Facial Fractures		Other than orbital fracture	
		Mandibular fractures			
	Hand	Soft tissue injuries			
		Flexor tendon injuries			
		Extensor tendon injuries			
		Nerve injuries			
		Small Blood vessel repair			
		Hand infections			
	Limbs	Brachial plexus injuries			
		Degloving injuries			
		Major soft tissue and skeletal injuries			
		Wound debridement			
Burns	Minor burn management				
	Major burn	Management			
		Dressing under anesthesia			
		Escharotomy, fasciotomy			
		Burn wound excision and grafting (early/delayed)			
	Reconstruction	Post burn scar contracture			
		Burned face			
		Burned hand			
	Skin and Subcutaneous Tissue	Scars Treatment	Wide, depressed, adherent		
Hypertrophic scars					
Keloid					
Benign lesions					
Malignant skin tumors		Melanoma excision/reconstruction			

		Squamous cell carcinoma excision/reconstruction			
		Basal cell carcinoma excision/reconstruction			
	Soft tissue sarcoma	Excision/reconstruction			
	Surgery of vascular anomalies				
	Surgery of pigmented nevus				
Congenital anomalies	Ear	Prominent ears			
		Microtia, anotia, cryptotia			
	Congenital hand deformities	Syndactyly			
		Polydactyly			
		Others			
	Craniofacial surgery				
	Cleft lip and palate	Primary cleft lip/palate repair			
		Secondary cleft/palate repair			
		Alveolar bone grafting			
		Cleft nose deformity			
		Pharyngioplasty			
	Genitalia	Hypospadias			
		Epispadias			
		Gender reassignment			
Eyelid	Ptosis				
Nerve Surgery	Primary nerve repair				
	Delayed nerve repair				
	Nerve grafting				
	Brachial plexus injuries				
	Nerve neoplasms				
	Nerve decompression				
Elective Hand Surgery	Simple post traumatic surgical treatment				
	Complex post traumatic surgical treatment				
	Rheumatoid arthritis				
	Tumors				
	Dupuytren's contracture				

	Carpal tunnel syndrome					
	Tenolysis, tendon transfer, tendon grafting					
	Amputations, revision of amputations					
	Replantation, revascularization, pollicization					
	Fracture/dislocation fixation, arthrodesis, arthroplasty					
Breast	Neoplastic disorders	Benign				
		Malignant				
	Gynaecomastia					
	Oncoplastic surgery					
	Congenital anomalies					
	Breast reconstruction (implants, expanders, flaps) after	Mastectomy				
		Lumpectomy				
		Burns				
A/N complex reconstruction						
Others						
Trunk and Limbs	Reconstruction chest defects					
	Reconstruction of abdominal wall defects					
	Surgery of pressure sores					
	Surgery of chronic ulcers					
	Surgery for lymphedema					
	Surgery for Hidradenitis Suppurativa					
Head and Neck surgery	Lip tumors less than third of lips	Excision				
		Reconstruction				
	Oral cavity tumors	Excision				
		Reconstruction				
	Neck dissection	Functional				
		Radical				
	Salivary Gland Surgery					
	Scalp	Repair/Reconstruction				
		Alopecia treatment				
	Facial defects	Repair /reconstruction				
	Oculoplastic surgery	Ptosis				
		Ectropion / entropion				
Exophthalmos						
Reconstruction of eyebrow						

		Reconstruction of upper/lower eyelid				
	Nose	Fracture reduction				
		Reconstructive rhinoplasty				
		Reconstruction of simple nasal defects				
	Ear	Post traumatic ear reconstruction				
		Post burn ear reconstruction				
		Post neoplastic ear reconstruction				
		Slit ear lobe				
	Upper and lower lip reconstruction	Less than one third				
	Facial palsy reconstruction					
	Jaw cysts, swelling, tumors	Excision				
		Reconstruction				
Other skills	Cartilage graft harvesting					
	Bone graft harvesting					
	Wound management	Gangrene, osteomyelitis, VAC therapy, allografts, Skin substitutes				
	Fat harvesting and grafting					
Esthetic Surgery	Treatment of Rhytides office-based					
	Face lift					
	Neck lift					
	Facial augmentation					
	1ry Rhinoplasty					
	Septorhinoplasty / 2ndry Rhinoplasty					
	Blepharoplasty	Upper				
		Lower				
	Brow lift					
	Breast	1ry Augmentation				
		1ry Reduction				
		1ry Mastopexy				
		Combined 1ry				
		2ndry cases				
	Brachioplasty					
	Abdominoplasty					
	Liposuction					
Thigh lift						
Buttock	Lift					
	Augmentation					

	Calf augmentation				
	Body lifting	Upper			
		Lower
